SYSTEMS INC

Help build a more sustainable future with ReUse Systems, Inc.!

We're hiring a half-time Deconstruction Manager and a full-time Operations Manager to join our growing nonprofit in Geneva. These are exciting opportunities to help launch and grow a new reuse center serving Ontario County and the Finger Lakes region, keeping valuable building materials, furniture, and other reusable items out of landfills.

If you're passionate about sustainability, resourcefulness, and making a tangible difference in your community, we'd love to hear from you! Visit our website to learn more about the positions and how to apply. And please share this e-mail with anyone who might be interested.

Community in Action:
HWS Volunteers lend a hand

On October 10, members of the Hobart and William Smith Colleges' squash teams came together to help ReUse Systems, Inc. (RSI) reorganize and clean our warehouse space at 122 N. Genesee St., inside the Geneva Economic Development Center. The event is part of HWS's Day of Service.

Organized by RSI's AmeriCorps VISTA volunteer Aaron Vicioso (an HWS alum), this energetic crew of men and women moved furniture, cabinets, salvaged doors, desks, and donated factory overstock and cleaned the floors so that RSI can price and catalog these items for our upcoming pop-up sale on October 31 (see below).

A huge thank you to all the HWS Day of Service volunteers for your help. You are amazing!

Mark your calendars…

Please share this newsletter
with friends, family and neighbors.
Thank you!
